Your Cadet Journey

Your cadetship combines **college learning** with **hands-on training at sea**. Each stage helps you build the knowledge, skills and confidence needed for life as an officer.

STEP 1: Apply

Review current opportunities and choose the route that best fits your interests.

STEP 2: Interview

If shortlisted, you may be invited to an interview or assessment. This is a chance for us to learn about you – and for you about us and to ask questions.

STEP 3: Start College

You'll begin training at a UK maritime college, learning the basics for your chosen route and completing required safety training.

STEP 4: Go to Sea

During sea phases, you'll train aboard working cruise ships, complete practical tasks and learn from experienced officers.

STEP 5: Finish Training

You'll complete your college phases, sea time, exams and assessments for your route.

STEP 6: Take the Next Step

After successfully completing the programme and meeting the required standards, cadets may have the opportunity to apply for officer roles across participating Carnival Corporation cruises.

There's more to Sea.
Power your future.
Explore the world.
